THE TIMES FREE INFORMATION AND RESORT BUREAU is for the accompaniment of those seeking recreation rest and recuperation among seashores and mountain resorts. Particulars are furnished regarding public and private resorts; their attractions, amusements, photographic circles and transportation facilities. The information is compiled and distributed in a form that can be kept on hand for inspection and distribution. It is a time saving device. In a few minutes, information that would take a week and in many instances longer to procure if they were compelled to write for it.

THE CITY IN BRIEF

For Auld Lang Syne

NEWS AND BUSINESS.

"Independent" New Editor.
The California Independent will announce in its issue of today that Andrew Park, an attorney of this city, has been chosen editor of that paper. Mr. Park is a man of much force and for the first time enters the field of journalism.

Stanton Post's Anniversary.
Stanton Post, G.A.R., will celebrate the twenty-fifth anniversary of its organization this evening at 7:30 at No. 1245 South Spring street. The program will consist of music, a history of the post, and short addresses by the surviving charter members. Only eight of the twenty-five who organized the post remain. The celebration will be open to the public. Science Teachers Meeting.

The first general meeting of the Southern California Science Teachers Association will be held tomorrow at Occidental College. Two sessions will be held, the first at 10 o'clock in the morning. Address will be delivered by Dr. Baer, Prof. A. H. Chamberlain and R. C. Daniels. Music will be furnished by the Occidental Glee Club.

To Promote Industrial School.
A meeting for the promotion of the Industrial School of Los Angeles, incorporated for the purpose of promoting the education of the people, will be held in Burbank Hall this evening at 8 o'clock. W. J. Thompson, Rev. Dr. J. J. Smith and W. B. Coleman will deliver addresses, and there will be good music. The meeting is free and all friends of the school are invited.

Federal Building Humming.
The granite work on the new Federal building, North Main and Temple streets, has been completed. The head of red sandstone for the upper stories was received yesterday, and other shipments will arrive in sufficient quantities each week to keep the structure busy. The structural framework will be finished before Christmas, and the concrete floor have been placed as far as the seventh floor.

Manager Expulsion.
Manager Newman of the Made in Southern California Exposition has made a contract with Elliott E. Deamer for an engagement of the well-known baritone at the theater which is a part of the big manufacturing and industrial show. Mr. Deamer, who possesses a voice of great purity and volume, will make his first appearance tomorrow afternoon, and render the senior song from "Robin Hood," with the arduous chorus.

Offers Reward to Find Son.
Rev. L. F. Bickford of No. 6225 Monte Vista street, father of F. L. Bickford, 17 years of age who disappeared from a sanatorium in Garvanza, Monday night, yesterday offered a reward of \$50 for information leading to the recovery of the young man's whereabouts. Young Bickford was wearing a pair of balloons and an overcoat at the time of his departure. It is thought he followed one of the many trails leading back into the mountains near Pasadena.

Relief Corps Election.
United Sam's Women's Relief Corps elected the following officers yesterday afternoon: President, Lena H. Haggren; Senior Vice, Mollie Howell; Junior Vice, Elizabeth Merwin; Treasurer, Elsie Edwards; Chaplain, Abbie Gamage; Conductor, Gertrude Hatch; Guard, Hannah Wagner; First Sergeant, Mollie Howell; Second, Alfretha Collar; First Alternate, May Watson; Second, Florence Phillips. These officers will be installed next month.

BREVITIES.

The Times Midwinter Number worth waiting for. The Midwinter Number, year after year, has been a marked improvement in the appearance, quality of text, beauty of illustrations and general typographical excellence of The Times' New Year's Annual. Months of labor by a corps of expert writers and photographers have resulted in the most surpassing compilation of authentic descriptive articles about the whole Southwest, and their appearance in this single publication will be the crowning achievement of all the Times' success in the publication of special numbers. The issue will consist of not less than 100 pages, in magazine form, with fifty full-page illustrations. You can read practical aid in the development of this country by a wide dissemination of this great newspaper. It will be far superior to anything of the kind published elsewhere in Los Angeles, and well worth waiting for. Price 10 cents per copy; postpaid 15 cents. More than 100,000 copies will be distributed, besides the splendid medium for real estate and development enterprises advertising.

Midwinter Liners.—Classified advertisements for insertion in the magazine parts of The Times' Annual Midwinter Number, to be issued January 1, will be accepted up to and including December 25. Usual classification headings will be provided. This number will be a particularly valuable advertising medium for real estate owners and dealers who have attractive propositions to make prospective home-sellers and settlers. Farms, orchards, dairies and vineyards should find a market through this 100-page edition, which promises to be more widely circulated than any previous issue of The Times' New Year's Numbers. Thousands and thousands of copies will be mailed away by enterprising citizens, besides those delivered to regular subscribers. Rate, 5 cents per word, 20 cents per line.

Remember the Sugar.—"Buy and Boost Home Products." For daily reference, see page 8, part II, of the Times, containing list of wide-spread manufacturers, under the heading "Made in Southern California." You will find there are manufacturers of necessities, art luxuries here—manufacturers of things to eat and drink, things for the home, the factory, the office and the farm. Buy them! Try them! There are none better. Buy and Boost, and keep your money at home where it will do you and yours the most good!

partment are big features of the publication. The recipes brought out by The Times' prize-winning contest, generally from Southern California housewives and noted chefs. Price 25 cents by mail 1 cent additional. Address The Times, Los Angeles.

To Let—Handsome fitted office and exhibit spaces or desk room, also basement, to premises occupied by new branch office of The Times at 521 S. Spring st.; splendid location; suitable for California products and well adapted for headquarters of excursions, "teamship or railroad enterprises, or for other business. For particulars and rental cost apply on premises, or to Manager's office in the Times Building.

Old firm of F. Sule One has been in business thirty-six years. We generally carry the largest stock of real Chinese and Japanese goods in America. Right goods at right prices. We pack and ship goods free. 510 N. Los Angeles street, Los Angeles. Chinatown; 121 E. Colorado street, Pasadena.

Rainbow Bazaar, Boreen Hall, Auditorium, Fifth and Olive streets, Thursday and Friday, December 10 and 11. Luncheon, Friday, 12-2. Dinner, Thursday and Friday, 12-2. Music, evening.

Wanted—Salesman, a thoroughly experienced drapery and rug salesman. Must have first-class references for ability. Apply to manager "Vital de Paris," 317-325 S. Broadway.

Thousands of andirons, fire sets, grates, sparkguards, refitted at whole sale prices. J. W. Frey's Mantel House, cor. 12th and Los Angeles sts. Wreden Packing and Provision Co., 129 South Main street, will contain their Saturday meat specials this week.

Dr. Cheney, Osteopath, 434 Byrne Bldg., 2nd and Broadway. Telephone A4415.

S. Conradi (formerly jeweler) office with Park Bank, cor. 5th and Hill sts. Don't forget the Wreden's Bazaar for Christmas bargains. 417 W. 7th.

Dr. Logan guarantees his glasses to fit your eyes. 415 South Spring.

Dr. Logan guarantees his glasses to fit your eyes. 415 South Spring.

Artificial eyes, Delany's, 309 Spring. Furs remodeled, D. Bonoff 224 S. 2dwy.

YOUNG PIANIST'S RECITAL.
Harrison Williams, a young pianist who has studied for a number of years in Berlin, and a newcomer in this city, will give a piano recital in Symphony Hall, Blanchard building, Hill street, tomorrow afternoon, at 3 o'clock. He will render a programme of selected compositions, opening with Grieg's Sonata, Op. 10, No. 3, minor, followed by a group by Brahms, Mendelssohn-Liszt arrangements and several of Chopin's works.

EUCLEDIA HEIGHTS FAIR.
The ladies of the Euclid Heights Presbyterian Church, Euclid and Stevenson avenues, opened their Christmas bazaar last night, where they serve refreshments and offer for sale a large quantity of useful and ornamental articles suitable for Christmas gifts.

VITAL RECORD.
BIRTHS.
DECEMBER 4, to the wife of Percy Deane, 273 West Twenty-second street, a son.

DEATHS.
WHITE, December 9, 1931, Mary, beloved wife of William White, aged 75 years. Funeral Saturday, 11 a.m., from residence of daughter, Mrs. H. Williams, 417 W. Avenue 54, Highland Park. Laid to rest in Forest Lawn cemetery.

MARRIAGES.
PERGUSON-JOHNSON, Harry Perguson, aged 24, a native of Mississippi, and Edith Johnson, aged 15, a native of Mississippi, both residents of Los Angeles, were married December 10, 1931, at 11 a.m., at the residence of the bride's parents, Mr. and Mrs. J. H. Johnson, 1111 S. Main street, Los Angeles.

PHILLIPS-PHILLIPS. Mary Phillips, aged 24, a native of Ohio, and Elizabeth L. Phillips, aged 15, a native of California, both residents of Los Angeles, were married December 10, 1931, at 11 a.m., at the residence of the bride's parents, Mr. and Mrs. J. H. Johnson, 1111 S. Main street, Los Angeles.

GOODWIN-CAMERON. Joseph R. Goodwin, aged 24, a native of California, and Margaret Cameron, aged 15, a native of Michigan, both residents of Los Angeles, were married December 10, 1931, at 11 a.m., at the residence of the bride's parents, Mr. and Mrs. J. H. Johnson, 1111 S. Main street, Los Angeles.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

Mayor Harper announced yesterday that he will veto the ordinance approving the dead animal contract recently drawn up; he says a change might be harmful.

The hearing on Nick Steinbock's application for a liquor license at Neenach, two miles from the line of the Los Angeles Aqueduct, has been set by the Supervisors for next Monday.

Judge Conroy reserved his decision after hearing argument, yesterday, on a citation to Mayor Harper in his libel suits against E. T. Earl and the Evening Express Company.

John Clark testified in Judge James's court in Mrs. C. E. Clark's suit for divorce.

Five runaway boys from St. Catherine's Orphanage, Anaheim, were returned there from the Detention Home.

AT THE CITY HALL.

ALL MUST HAVE FIERY GRAVE.

MAYOR TO VETO NEW CONTRACT ON DEAD ANIMALS.

Bollman City is Doing the Work All Night Now and That Change Might Be Unsanitary Step—Garbage Question Awaiting Solution by Board of Public Works.

Mayor Harper announced last night that he will veto the contract made between the Council and the United Phosphate Company for the removal of dead animals from the city streets.

Dr. Kress condemns the new plan because he says it is unsanitary and unhygienic, saying that it does not only for the disposal of dead cows, horses, mules and large draught animals, but for the disposal of the carcasses of small animals.

Dr. Kress, Mr. Wheeler and Dr. L. M. Powers, health officer of Los Angeles, have been in conference since the afternoon of yesterday, discussing the question of the disposal of dead animals.

The specifications which the Board of Public Works has prepared divide the city into nine districts, following closely ward lines, so that bidders may bid on the city as a whole or in part.

The specifications are to delivery of garbage reads: "The contractor hereunder shall deliver to the city incinerator or may make such other disposition of the same as he deems proper, subject to the approval of the Board of Public Works."

Under this specification, Denver capitalists are using the city as a dumping ground for their garbage, and the Los Angeles situation with a view to bidding, but have not found such a move desirable unless the contract be for a long period.

Dr. Powers does not favor the contract system, believing the city can get better results by doing the work itself than by putting it into other hands. At present, the city rents teams and supplies the drivers. It has just finished paying for previous work, and it is pointed out that, under the specification as to delivery, quoted above, it might be possible for no garbage to be taken to the incinerator, but diverted to other uses.

Dr. Powers says with an adequate collection system and complete incineration of garbage, backed by ordinances imposing proper duties on householders, the garbage question would be easily solved, without recourse to the contract system.

AT THE COURTHOUSE.

"DRY" AQUEDUCT MUCH DESIRED.

BALOOONS ARE NOT WANTED ON OWENS RIVER LINE.

Board of Public Works and Other Bodies Will Probably File an Emergency Protest With County Supervisors Against Granting a Liquor License at Neenach.

Renewal of agitation against the establishment of saloons within a short distance of the line of the Los Angeles aqueduct seems probable next Monday, when the petition made by Nick Steinbock, for a liquor license at Neenach, two miles from the aqueduct line, is scheduled to come to a hearing before the Supervisors.

Steinbock filed his application for a retail license November 11. He has since complied with the law by publishing notice of his application in the Anaheim Valley Gazette. He has also filed with his application the required \$1000 bond, his bondsmen being Joseph F. Maier and Leon Eschallier.

The Board of Public Works is vigorously opposed to the establishment of any saloons within a four-mile limit of the line of the aqueduct. It proposed to the Supervisors in August, 1917, that an ordinance to that effect be adopted.

The Supervisors, however, took no action upon the subject. The Chamber of Commerce in September, 1917, introduced the proposed legislation. The Board of Public Works is now so far from the line of the aqueduct that the Supervisors are making reference to some "designated" limit within which no saloons shall be established.

The officials of the city are of the opinion that the establishment of saloons at points within the aqueduct line would result in all kinds of trouble, and both the work and the welfare of employees will be impaired.

Steinbock applied for a liquor license at Neenach in the summer of 1917, and at that time residents of the place sent a petition to the Supervisors stating the town needed no saloon, except to accommodate aqueduct employees, that petition was denied.

Superior Patterson was much agitated yesterday when he was asked what the Supervisors will do with Steinbock's petition. "I want to say right now," he exclaimed, "that I am not in favor of it. I am not in favor of it. I am not in favor of it."

Superior Patterson was much agitated yesterday when he was asked what the Supervisors will do with Steinbock's petition. "I want to say right now," he exclaimed, "that I am not in favor of it. I am not in favor of it. I am not in favor of it."

Under this specification, Denver capitalists are using the city as a dumping ground for their garbage, and the Los Angeles situation with a view to bidding, but have not found such a move desirable unless the contract be for a long period.

Dr. Powers does not favor the contract system, believing the city can get better results by doing the work itself than by putting it into other hands. At present, the city rents teams and supplies the drivers. It has just finished paying for previous work, and it is pointed out that, under the specification as to delivery, quoted above, it might be possible for no garbage to be taken to the incinerator, but diverted to other uses.

Dr. Powers says with an adequate collection system and complete incineration of garbage, backed by ordinances imposing proper duties on householders, the garbage question would be easily solved, without recourse to the contract system.

MAYOR TO VETO NEW CONTRACT ON DEAD ANIMALS.

Bollman City is Doing the Work All Night Now and That Change Might Be Unsanitary Step—Garbage Question Awaiting Solution by Board of Public Works.

Mayor Harper announced last night that he will veto the contract made between the Council and the United Phosphate Company for the removal of dead animals from the city streets.

Dr. Kress condemns the new plan because he says it is unsanitary and unhygienic, saying that it does not only for the disposal of dead cows, horses, mules and large draught animals, but for the disposal of the carcasses of small animals.

Dr. Kress, Mr. Wheeler and Dr. L. M. Powers, health officer of Los Angeles, have been in conference since the afternoon of yesterday, discussing the question of the disposal of dead animals.

The specifications which the Board of Public Works has prepared divide the city into nine districts, following closely ward lines, so that bidders may bid on the city as a whole or in part.

The specifications are to delivery of garbage reads: "The contractor hereunder shall deliver to the city incinerator or may make such other disposition of the same as he deems proper, subject to the approval of the Board of Public Works."

CONTESTED LAND CASE.

A decision of Gen. F. C. Prescott, registrar of the local Land Office, has been affirmed at Washington, in the case of Frank E. Dunlap against Mabel Oakley, assignee for Fred E. Dunlap. The latter made a desert land entry in the Imperial Valley in 1906 and established his claim to the land. Mabel Oakley, though the assignee, was not a citizen of the United States and was therefore disqualified to hold the land. The court has ruled that the land should be returned to the public domain.

FILES SUIT OVER NAME.

Timothy & Co., New York jewellers, filed suit yesterday in the local United States Circuit Court, against Charles H. Kelley of Pasadena, to recover damages for the alleged infringement of their trademark. It is asserted that the defendant has organized a concern under the name of the Timothy Jewelry Co., with the evident intention of securing patronage by the use of the name of the Timothy Jewelry Co. The court is asked to issue a temporary injunction restraining the defendant from making use of the word "Timothy" in connection with his business.

MIDWINTER LINES.

Classified advertisements for insertion in the magazine parts of The Times Annual will be accepted up to and including December 11. This number will be a particularly valuable advertising medium for those who have attractive propositions to make prospective customers. The magazine is a well-known and widely distributed publication, and its circulation is steadily increasing.

THE WILD WIDOW

By GERTIE DE S. WENTWORTH-JAMES.

The Cincinnati Times-Star says: "Let us introduce the 'Wild Widow.' She comes from England, where Paul of 'Three Weeks' lived. Gertie De S. Wentworth-James is the authoress. It is frankly an unusual story that comes perilously near the jumping-off place into the realms of unbridled and virgin realism. It is passionate, palpitating and ingenious. The plot is unusual, and the English reader liked it much."

1 Volume, 12mo, cloth, gilt, portrait of author. Price, \$1.50.

WAGON TRAINS AT COALINGA.

Corporation Uses Traction Engine.

Material Thus Hauled; Edgar Well at Kern.

Owner on Coalinga's Flat Out of Luck.

The California Oil Fields, Ltd., the British corporation which controls the Coalinga oil field, has been ordered to haul its freight from the Coalinga station to the Coalinga oil field, a distance of about 10 miles. It has purchased a locomotive of this type that will be used in the California oil fields.

WAGON TRAINS AT COALINGA.
The California Oil Fields, Ltd., the traction engine as a means of hauling its freight from the Pacific station at Coalinga to the oil fields, a distance of 10 miles. It has purchased a new traction engine of this type that will be most satisfactory for the purpose.

SAVED TO LOVE AGAIN.
Sentimental Suicide Frustrated by the Landlady, Who Discovers Unconscious Man.
With the photograph of a beautiful young woman clutched tightly in his hand the unconscious form of Harold Watrous was found in a room at No. 421 West Ninth street, yesterday morning. The room was filled with gas and Watrous was hurried to the Receiving Hospital. The quick work of the surgeons soon restored him to consciousness and it is thought he will live unless unforeseen complications set in. Watrous made careful preparations for suicide. He went through a number of letters and papers he had and assured them carefully. Most of them were from women. He had a card case filled with women's cards and the photograph clutched in his hand had been carefully wrapped with a dainty blue ribbon. It is supposed that Watrous was disappointed in some affair of the heart and decided to end it all.

Mrs. McNeer, the landlady, stated that Watrous rented a room two days ago, paid a week in advance and was evidently a model roomer. Early yesterday morning when she arose she did not notice the odor of gas. When her son left at 6 o'clock he told her he could smell gas. Later she made an investigation and traced the fumes to Watrous's room.

Later his brother and a man who said that he was the guardian of the unfortunate young man, called at the Receiving Hospital and removed the patient.

LOOKING INTO DORR FAILURE.
"BROKE" BROKER'S FATHER-IN-LAW IN LOS ANGELES.
Says Creditors Will Get Their Claims if Son-in-Law Is Allowed to Resume Operations—Wants to See Californians on Harbor and Other Needs.
Judge A. W. Rucker of Denver, Congressman-elect from the First District of the Centennial State, is in the city, the guest of his son-in-law, Fred Dorre, the ex-broker, at No. 237 West street, who recently failed in this and other cities.

Judge Rucker is here for the purpose of looking over the affairs of Mr. Dorre, and declares that all misgivings as to the extent of the failure have been dispelled by an examination into Dorre's business dealings. Judge Rucker also said that among the many who failed in consequence of the stringency he believes Dorre's record as regards assets available for the use of his creditors is a signal one in his favor. He calculates there will remain to his creditors something more than \$100,000, and said that Dorre has made a proposition of settlement with them by which, within two years, in his judgment, the entire list of obligations will be liquidated. This, he predicted on the view that Dorre will be allowed to resume business.

Judge Rucker claims that Dorre has turned over to the trustee in bankruptcy absolutely every available asset, leaving his family without provision for the future. He believes Dorre will pass through the crucible with honor; that his friends will flock to him if he is allowed to resume business. However, the father-in-law says, he is not allowed to resume, the estate left for his creditors will be dissipated by futile and costly litigation, the result being that the creditors will receive far less and Dorre will be left without resources.

Judge Rucker says he will be glad to meet Dorre's creditors and advise with them in their situation.

Judge Rucker is not only largely interested in Colorado, but is also in California enterprises, and has been much in the coming Congress will be asked for large appropriations for the deepening of the harbors on the Pacific Coast, while he is in this city to visit not only Los Angeles and San Pedro, but also San Diego for the purpose of acquainting himself with the probable needs of this part of the country. He says he would like to meet the business men of Southern California, while he is in this city concerning their special wants at the hands of Congress, of which he will be a member after March 4.

HIS RIBS CRACKED.
Market Man Dodges Car, and Is Struck by an Automobile and Seriously Injured.
J. C. C. Gilbert, a market man, fifty years of age, who lives at No. 209 West Fifty-fourth street, was seriously injured yesterday afternoon when an automobile driven by Fred Wallace, ran him down at Ninth and South Main streets.

Gilbert dodged from back of a cow, according to the statement of spectators, and ran directly in the path of the automobile. Other witnesses state that the machine was going at a rate of speed greater than that provided by law when the accident occurred.

The car, a new Stoddard-Dayton, was making its initial trip with a prospective purchaser on board. A. E. Lusby of the automobile company was also seated in the tonneau. Motorcycle officers Cow and Humphrey who were passing the corner at the time of the accident lifted the injured man into the car and hurried him to the Receiving Hospital. His injuries, consisting of a slight concussion of the brain, four fractured ribs and a number of bruises and lacerations, were treated and he was then sent to his home in an ambulance.

REPORT FIND OF TITANIUM.
Capitalists Are Said to Be Much Interested.
Mineral of Little Value; no Cause for Stir.
Enlargements Planned for Kelvin Workings.
According to a message from Cuprite, Nev., a station on the Tonopah and Tidewater railroad, fifteen miles south of Goldfield, the inhabitants of that section are widely excited over the discovery, at a point about one mile west of the station, of large quantities of titanium. Analyses by Goldfield assayers leave no doubt about the genuineness of the ore. The message further states that a camp has been established at the point of discovery by representatives of San Francisco capitalists, who regard the find as of the greatest importance, alleging that this metallic element is used in the process of manufacturing Bessemer steel and has only been heretofore discovered in South America.

Facts tend to dissipate the rosy dreams of wealth which are evidently floating around in the imagination of the Nevada boomers. Titanium is by no means a rare metallic element, although considered by many to be such. It is widely distributed and a number of considerable deposits are found in West Virginia, Minnesota, Wyoming and elsewhere. It is very often found in combination with hematite, and is the base of the iron smelter man when encountered in such ore. It is an essential constituent of titanite iron, or menacanthite, and in the oxide form is known as rutile, octahedrite, brookite, etc., having the general percentage composition of oxygen 28, and titanium 72. Its most general use has been in tinting china and artificial teeth. In the past few years attempts have been made to exploit it in the steel making process, a number of patents covering different forms of such processes having been granted, but they have not been successful and have gone into the limbo which has engulfed "liquid air" and many other similar bubbles. It has also been experimented with as a filament for incandescent lamps, but is not considered as effective for that purpose as tungsten products. It is safe to say that a very few thousand dollars worth of titanium would swamp the market in this country and the world, as its use is very limited.

Enlargement at Melvin.
The Ray Consolidated Copper Company, which is doing a large amount of development work below Melvin, Ariz., which is at present operating a testing concentrating plant of 200 tons capacity, will enlarge the plant during 1909. It is planned to increase the capacity to several thousand tons per day. The present work is confined to development. One running 24 to 25 per cent. copper has been encountered in large quantities and this is being blocked out. There is now assured 10,000,000 of this low-grade ore, which will be taken out and treated at the new plant. The properties are similar in character to the Bingham and Elly districts, and contain enormous and practically inexhaustible quantities of low-grade ore. The company is headed by Sherwood Aldrich, the Colorado Springs mining magnate, and Philip Wiseman in manager. R. D. Grant, a former Butte mining man, now residing in this city, is a heavy stockholder. The engineers are Seelye A. Mudd, A. Chester Bentley and D. C. Jackling.

It has been developing for two years past and has done no shipping. The properties lie on the standard-gauge leading to Melvin, which will be used jointly by the Southern Pacific and the Santa Fe.

Sonora Operations.
The Harris Copper Company, operating eighteen miles east of Nacozari, Sonora, Mex., is working at the present time thirty men, and has just made a shipment of good ore to the Douglas smelter. It averaged 24 per cent. copper, 24 gold and 14 silver. This company has done to date 2000 feet of development.

The Indiana Exploration Company has just been incorporated to take over twenty claims lying in Sonora, Mex., on the line of the Southern Pacific. These claims have been examined and passed upon favorably and immediately upon taking them over the company will develop several of them. The incorporators were T. J. Whalen, C. Wilson, A. R. Ludley, C. M. Hunt and M. N. McKeeser.

Movements of Mining Men.
Seelye W. Mudd will leave today for Melvin on mining business for the Ray Consolidated Copper Company. He will be gone for two weeks.

E. E. Barton of the Engineers' Exploration Company, who has been in Mexico for several months on the Marcus Daly estate deal in Jalisco, is expected to return to the city shortly.

Samuel T. Godde, a mining engineer of this city, is in Tucson making some examinations for Whalen and Werner.

William E. Saunders left Saturday for Nogales, where he will cross into Mexico and examine some mining properties for the Engineers' Exploration Company.

H. E. St. George, residing in Fairbanks, Alaska, and identified with the immense developments in mining in that region, registered at the Hollenbeck yesterday.

J. H. West of Needles, one of the Supervisors of his county, and interested in a number of good mining properties, is at the Hollenbeck.

H. H. Boehm, mining in Copper Basin and residing at Prescott, Ariz., is stopping at the Hollenbeck.

Edward Arnold, interested in the rich Panamint country, registers from Keeler at the Hollenbeck.

L. D. Raser, C. E., returned yesterday from Western San Bernardino county, where he has been surveying claims for the Leiser-Rea Mining Company, whose holdings are in the Signal district, midway between Gold's and Von Triger. He reports that the company is installing a hoist and has four men at work in a ledge which averages better than 200 per cent. in gold.

A Perfect Blue White Whitley Diamond

The Gift Supreme

Probably one of the strongest and best examples of Whitley diamond supremacy is offered right here in this

Exquisite Diamond Pendant

It was designed and made especially for us, here in our own establishment. Every stone used in it was personally and scrutinously selected by our diamond experts. It is exclusively a "Whitley" creation—a perfect example of the jeweler's art.

And we have many other just such beautiful pieces. Our collection of diamond pendants is undoubtedly the finest in the city.

And importing our diamonds direct, as we do, and mounting them ourselves, we are enabled to offer diamond values that are not possible in the ordinary store.

Of course, we stand back of every diamond we sell, and that is really the all important thing to you when you buy a diamond, particularly if it is for a gift.

THE WHITLEY JEWELRY CO.

"The Store With the White Marble Front"

Settle the Gift Question With a Walk-Over Certificate
\$3.50, \$4, \$5

MR. EMPLOYER
Can you think of any gift your employees would appreciate more than a certificate for Walk-Over shoes? Such a gift eliminates all possibility of showing favoritism, and it relieves you of the duty of choosing.

It is a practical—a logical gift, for it not only solves the gift problem simply, quickly, satisfactorily—but it fills an absolute, certain need. What better gift could you give to mother, father, brother, sister, wife or husband? It is real economy to give such a gift.

And it is a recognized fact that Walk-Overs are the best shoes made in America.

GIVEN FINE WELCOME.

(Continued From First Page.)

times since getting here," he said. "The cordiality and hospitality at Los Angeles are deeply appreciated. Our coming here is, in a way, the result of a pact between Brother Stewart and myself. I invited him as the representative of this great body of men to bring them to our city. He told me that we were due to make a visit here. This is our first real pilgrimage outside the city, as an organization. True, we have taken short trips about, but none that bear the importance of this one."

"We came here to glory in what you have done. We want to absorb some of that fine spirit that makes your people go ahead and accomplish such great undertakings."

"We wish you to feel that we really want to get into close relations with you. In behalf of the chamber I represent, I extend a hearty invitation to visit our city at no distant date." (Cheers.)

Leuel-Gov. Warren R. Porter, whose home is in Waterville, spoke as the representative of Gov. Leuel-Gov. Warren R. Porter, who was unable to be present on account of illness.

"The Governor was anxious to participate in this good time," said Mr. Porter, "and because he was unable to be present, I am happy to convey his cordial appreciation of the people of Southern California. He has experienced your hospitality and has the deepest feeling for you all. (Applause.)"

ALL IN COMMON CAUSE.
"For myself, I can say that I am very glad to be here. We may have different ways of doing business in the North. We all love our own homes and work to aid the sections in which we live. But it is good to come here to absorb some of your enthusiasm, some of the southern warmth. It is well for the citizens of the northern city to meet the men of the South. We have a common cause and should touch elbows. In our hearts we are all for California. There is really no north, no south, no east, no west."

"I never denied an invitation," said Henry T. Scott of San Francisco, when called upon to give an impromptu speech. "We are all citizens of a great State. We cannot build anything in San Francisco that does not benefit Los Angeles and vice versa. We achieve any great work that does not help up. We admire the south for her unity of spirit and her obedience to law. We have problems to face in our own city, and we are grateful for the example you have set us."

Following a short address by Ernest R. Simpson of San Francisco, President Stewart introduced William T. Stephens, as one of the past presidents of the local chamber, who had done much to advance its interests. In a humorous way, Mr. Stephens said that many persons thought Los Angeles people were telling "fairy tales" when they came to see for themselves, and illustrated his point by a capital story.

JEALOUSY ALL GONE.
"Your Chamber of Commerce has brought your best men here," he continued. "We have brought our best men to meet you. We give you the heartiest kind of a welcome. If there has been at any time any jealousy that feeling has passed away. There is enough here for both of us. I am proud of San Francisco and her people and her courage. I never saw that spirit displayed as I did on the day of the terrible fire of April 18, 1906."

"What matters it really which city is the larger, if San Francisco continues to be the larger city in the state, that does not retard our growth, or if Los Angeles shall at some future time become the largest, that is no reason for jealousy."

Andrew Carrigan of San Francisco said that the geographical line of the Tehachas should not divide the State in other ways. He found the same spirit in the south that he did in the north, and he loved both cities, he declared.

Gavin McNab of San Francisco, in an eloquent eulogy of California, pointed out a brilliant future for the Pacific Coast, with the State as the dominant factor in the great commercial development of the West. He said that the spirit that made Los Angeles grow from a village to a city is still present, and he predicted a wonderful future for all this section. He said that San Francisco had learned her lesson, and in the two or more years since the fire was showing the courage and strength that is the foundation of her real greatness. He asserted that his people would always remember it was Los Angeles that came to his aid when San Francisco men and women were without food or shelter.

MAY RETURN CALL.
Willis H. Booth, first vice-president of the local chamber, was introduced as the next president of the organization. He promptly admitted that he was willing to serve in that capacity, but said that he questioned the authority of the president to program the election before the annual election. If elected, he declared that it would be a great pleasure to lead a delegation of local business men to San Francisco, there to partake of the hospitality of that city.

Following the speech-making, those present passed an hour in a social hour.

The party of visitors will leave this morning at 9 o'clock from the Santa Fe station. The first stop will be at San Bernardino, and the next at Redlands. An elaborate dinner will be served in the evening at the Glenwood, Riverside, and after a visit of a few hours in the city of orange groves, the excursionists will leave about midnight for a journey into Imperial Valley. There will be brief stops at Brawley, Imperial, El Centro, Calexico and Holtville. The residents of the valley towns are preparing to extend every courtesy to the visitors, most of whom never have seen the new and fertile country that has been wrested from the desert. On their return, the travelers expect to reach San Francisco late Sunday night.

OPEN THEIR EYES.
Many evidences of commercial enterprise at Redondo Springs North-ern Visitors.

REDONDO, Dec. 10.—One hundred and fifty members of the San Francisco Board of Trade visited this city today, coming over the Los Angeles-Pacific Railway. They were tendered an informal reception at the pavilion by leading members of the Chamber of Commerce. They were taken to Clifton and to the power-house of the Pacific Light and Power Company, by way of the Los Angeles and Redondo service. The visitors expressed surprise at the many evidences of commercial enterprise manifested here.

SEEK RELIEF.
At a private meeting last night, at which were present the resident owners of nearly one-half the privately-owned real property within the city limits, it was decided to petition the Trustees to amend the recently-enacted ordinance which provides for the method of connecting with the new sewer so as to relieve the property owners of the tax for the so-called "sewer repair fund."

THE valuable historical collection of letters in the University of California, will be the subject of an interesting article in The Times Magazine the coming Sunday.

READ "Pete Rice's Reminiscences" in The Times Magazine the coming Sunday.
